Saker rant: reaction to the Dems attempt to impeach Trump

2053 Views | September 24, 2019 | 20 Comments

I think that most readers know that I am not a fan of Trump or the Republican Party. But I have to say that compared to the Democrats, the folks at the GOP are quasi decent; not very bright and only decent *in comparison* with the Dems, but still.

I have always maintained that the Neocons will try to impeach Trump and that he was what I called a "disposable" President the Neocons will use for dumb shit like moving the US embassy to al-Quds before jettisoning him, but I never thought that the Dems would have the *chutzpah* to pull off exactly the same trick TWICE!

What do I mean by that?

Look at that sequence:

Hillary does something dumb and insiders at the DNC leak documents. What do the Dems do? Invent the entire **Russagate** charade.

This time around:

The Bidens do something dumb and somebody finds out. What do the Dems do? Invent a brand new **"Ukrainegate"**!

Exact same trick. Twice!

And since chances are that the Senate will never impeach Trump, the real reason they are now talking about impeachment is just to help Biden and his campaign. In other words, the Dems are doing exactly what they are accusing Trump of doing: they are trying to use a foreign power to interfere in US elections.

Then there is this: at least *some* Republicans are true patriots. But the Dems? They don't care that forcing the President to release his conversations with foreign officials will make it hard in the future for foreign officials to be candid when they speak to the US President (even if he/she is a Dem!).

Besides, ALL the intelligence services on the planets have all kinds of agreements and understandings with others and requesting data on illegal activities of US citizens abroad is

something which all [17](#) (!) US intelligence agencies ought to be doing. And when dealing with a very public or powerful figure, it is normal for heads of state to be the top person to decide if such a confidential exchange of sensitive materials will or will not take place. Finally, last time I checked, the VP does not keep his immunity of office once gone.

Sorry, but for the life of me I don't see what Trump did wrong.

But then, neither did General Flynn do anything wrong either, and Trump immediately and totally betrayed him, so there is some karma at work here.

Then there is this famous "whistle-blower". First, for all we know, this might be a "Peter Strzok v2", so let's wait before assuming that another Snowden is coming forth.

Then, what NERVE the Dems have whining about Trump not allowing this alleged whistle-blower to come forward. Okay, maybe The Donald got it wrong and said something stupid. But he sure did not persecute whistle-blowers as viciously as Obama did! Do these Dems have no shame! (no need to answer, that was rhetorical).

And, to fully complete my sense of nausea, I just read John Podhoretz' editorial "[Trump Did This to Himself](#)" in Commentary (yes, I read the enemy's propaganda, always). Technically, Podhoretz' is right, of course, but not at all in the sense he means it.

I am saddened by all this. In my 56th year I lived 20 years in the USA and I love both its beautiful nature and many of its kind and good people. This country deserves so much better! And please don't accuse me of being Pollyannaish about the USA's past. I wrote about the evils of US imperialism, racism and multiple genocides (including the biggest one in history, the one of Native Americans) many times. But I am also aware of all the beautiful and noble things this young country also had in its short history. Besides, those who live in the USA today cannot be blamed for the past (unless they whitewash it, of course).

Just 30 years ago the USA was a totally different country. The Bill of Rights still mattered. M*A*S*H was shown on TV without having hordes of offended minorities protesting. US Americans did not fear the police (at least if you were not Black). There was no ICE and US colleges had a TRUE political diversity. Okay, the US media was mostly crap, but some "dissident" journals could still get published" (nowadays, a US journalist is, to use Alain Soral's very apt words about the French journals, either a prostitute or unemployed).

This, and much more, is all gone now.

If the human race does not destroy itself and if we still have a future, historians will study this last phase of the US Empire and they will argue who was most to blame. And while blame can be apportioned pretty much everywhere, ***I think that it is fair to say that the Democrats did much more damage to this country than the Republicans.*** Of course, the real culprit hiding in shades are the Neocons who first took control of the Democratic Party (under Carter and maybe even before) and who then proceeded to infiltrate the GOP (under Reagan) (In the case of the GOP I was an eyewitness to how this was done in several think tanks in DC between 1988 and 1991).

With the [sole possible exception of Tulsi Gabbard](#), I consider the Democratic Party to be profoundly anti-American (sorry, I cannot use the words "anti-US", which would be more accurate but also clumsy). In fact, the evidence of the past several decades shows that Dems only care about themselves, their power, their money, their fame. They don't give a hoot about the people of the United States, all their catering to loony minorities is just a scam. They are the worst supremacists in this country for sure!

I think that anybody who for whatever reason supported this party in the past ought to now resign from it, publicly if possible.

Alas, I am not holding my breath for that either.

This is a sad day.

If history is any guide, under these conditions, either a presidency is at stake, or a congressional party house. Nancy (lame duck) Pelosi is being forced to throw a pitch that unfortunately the democrats simply cant hit.

Let the campaigning begin, this is a no brainer as to who wins and loses.

The Saker, it may be so. But if you had listened to that sorry excuse of a world leader speech from Mr Trump at the UN general assembly today, you would probably be sick to your stomach as I am. I went to listen to that with an open mind. I got halfway and then wanted to drink the cooking rum for lunch to fortify myself and ranted about birdbrains smaller than that of a baby canary and intelligence resembling that of a broccoli.

I do not know who is worse, and you are probably right on the scale of Worse, Worser, Worstest! but what I ended up with is sheer terror – that this man has a nuclear decision making power. How is it that decent humans like Tulsi or Rand Paul cannot get a way open. I'm afraid it is all swamp now – just certain areas are deeper and more decrepit than others.

One group of international criminals are fussing and arguing with another group of international criminals about some international criminal or other, again, and again, and again...
 One thing that I do find delightful is the realization that the American people were so fed up with this nonsense during the last election that they literally elected to make DC eat every single last spoonful of their own \$@#p, on live television, in front of the entire world, and everyone in it, every single day, for three years or so straight now. I applaud that aspect of this political phenomena. I cannot see even one indication that they will not do the exact same thing again. Hopefully, eventually, the truth of the matter will become literally impossible to 'not see' anymore, regardless of what the television tries to tell us to think.

Saker, what your rant and rambling point to is the Republic is gone, over. The Deep State took it from the People.

The Dems are the surface social layer that is used to distract the citizens. It is where Power processes flow, political parties.

But the true governing power is deeper and that's from where these treacherous operations generate.

The MO of this Ukrainegate is identical to the Russiagate gambit. Of course, it is. Same people, same shithole source (Ukraine), same Khazarians in the middle of it (CIA-State), same Russophobia.

The reason they keep going after Trump is he has consistently said that Ukraine is none of the US interest. Though he keeps allowing hundreds of millions in armaments to the Ukies, he says the EU should be bankrolling and controlling Ukraine. Atop that, he keeps saying non-Russophobic things regarding Russia.

The Dem Party operatives and the Khazarian fanatics in the Deep State (CIA-State Dept.) are co-workers in the long campaign to destroy Russia. They are mostly the same Tribe, for one thing. And they are part of the corruption system of politics and commerce in Ukraine and most of Eastern Europe and even inside Russia. Billions have gone through the hands of not only the oligarchs.

The Podestas, Manafort and others made millions in the elections in Ukraine over the years. Illegal arms dealers in Ukraine are a huge supplier of stolen weapons that reach ISIS and AQ in Syria and Iraq. Only Bulgaria is bigger. These are funneled via ratlines of the CIA (yes, the same Deep State Khazarians).

The corruption runs deep and the Dems have had their hands in the money trough for decades.

Trump stumbled into the mess during the 2016 campaign, and now has blundered with the phone call to Zelensky. He's a slow learner.

So instead of getting his trade deal with Canada and Mexico passed by Congress (USMCA), he gets a tour of the septic tank Congress is opening for him with this Impeachment Inquiry.

The Deep State is protecting its turf. Ukraine is their pig sty. But it's lucrative. And it is the perpetual platform for Russophobia. They will never release it.

I much appreciate your honesty and integrity, but above all, speaking truth to power Saker. You shine a spotlight on the Neocon nutjobs who infest Washington like maggots infest a dead sheep. These creatures lust for power and wealth and full spectrum dominance (Wolfowitz doctrine) above all else. As you have pointed out many times, they imperil all of humanity with their evil machinations. And I fully agree; they are pure evil.

Imagine if Mike Pence did somehow become President. Imagine the ramifications: a full blown Christian Dominionist who believes in The Rapture apparently.

Here's a dumb question: why hasn't Hillary Clinton gone to jail for her many crimes as well as breathtaking corruption? I suppose you could say the same about Tony Blair, Dick Cheney, Donald Rumsfeld, John Howard, George Dubya, etc.

The Anglo Zionist Empire has most definitely begun its death throes. But how much damage will it inflict as it crashes? That's the situation we find ourselves in.

I'm trying to come up with an explanation for this move by the Democrats that would make sense. I have, but it's very complex. Here are my assumptions.

First, Trump is still not the choice with "the powers that be". This includes almost the entire Republican party and of course the Democratic party. It also includes those for whom these politicians are nothing more than "Worthy Merchandise".

Second, Clinton still intends to be President.

Third, Ukraine-gate has one significant advantage as a platform for impeachment. There is actual evidence that the events in question did take place. Everything else is interpretation. MSM will ensure the Right Interpretation is all that will ever be presented to the viewing and listening Public, just as it did with Russiagate.

Now at this point I expect you will be saying, "yeah, but so what". Like Clinton, the one not in a pant suit, Trump will be brought up on charges and that will be the end of it.

Unless Clinton, the one in a pant suit, is still really running for President.

In that case, the Powers That Be, will put the fix in with Senate Republicans, who complete with Crocodile Tears, protesting greatly their Loyalty to the Party and Trump, but nevertheless find themselves compelled by Duty, Honor, Country and The Constitution, to throw Trump under a bus.

Then:

All the revelations of The Impeachment and The Trial, will ensure Biden's withdrawal from the Race. I mean he is a Crook and so is his son. Not in the Mafia way, but in the way of the inevitable Corruption that accompanies Power. We all know that, its just bad form when MSM says that to The Public. That said, I suppose there is something to be said for Family Values. Especially in a Democrat.

After the Impeachment/Trial, Pence will only have to be endured for a short interregnum until "the boys behind the curtain" anoint "whomever" for the nomination.

It's also possible that if the fix is in, Pence will end up with the nomination, because, it won't matter whom the Republicans have to mount their production. Someone who has truly sold their soul to Davos and the Devil will also be running.

And the winner is:

Hillary Clinton

If you think Hillary is going to step up to plate, I have a plank you can walk instead, its called drug test your politicians and watch Hillary run alright, right for the hills, we already discussed it and that's primarily why she quit running. Vasily Prozorov was an Ukrainian security service (SBU) staffer from 1999 to 2018. Since 2014, he was an expert consultant in the SBU's main anti-terror unit. In 2018, he fled to Russia. The Ukrainians now call him a traitor. Writing on his blog Ukraine Leaks, he says that in 2016, the Ukrainian government openly supported Hillary Clinton and tried to help her defeat Donald Trump.

“Former Ukrainian president Petro Poroshenko was terribly afraid of a Republican victory, believing Donald Trump would change Russia policy and lift sanctions, reducing support for Ukraine and robbing Poroshenko of his Western power base,” Prozorov writes. “Ukrainegate is a criminal conspiracy of representatives of Hillary Clinton’s campaign and the leadership of Ukraine in the person of Poroshenko, aimed at preventing Donald Trump from winning.”

“At that time, I worked at SBU HQ in Kiev,” says Prozorov. “I remember the panic that gripped the power structures in Ukraine after Donald Trump’s victory. They expected immediate retaliation from Washington for Ukraine’s participation in the attacks on Trump. Many politicians deleted their social media posts criticizing Trump.” However, as it turned out, the phony Russiagate witch hunt kept the Trump campaign from doing anything that could look like “collusion” or “obstruction” abroad. **Now, however, the Ukrainegate conspiracy is starting to unravel.**

How Ukraine financed Hillary Clinton

Prozorov charges that during the 2016 presidential race, the Ukrainian government not only helped Hillary Clinton by providing potentially damaging information on Trump campaign employees like Paul Manafort, but also used money diverted from the IMF to fund Hillary Clinton’s campaign.

Beginning with the Obama-assisted coup in Kiev in 2014, the National Bank of Ukraine received billions in foreign aid from the International Monetary Fund to keep the Ukrainian financial sector afloat. “A year after Poroshenko’s pro-Western government came to power in 2014, the IMF agreed to loan Kyiv \$17.5 billion (€15.8 billion) over four years — and then suspended the aid in 2017 after disbursing only half of it over worries about corruption”, Deutsche Welle reports.

Around the time of the US presidential campaign, Ukrainian banks started funneling this money offshore via the Austrian Meindl Bank – up to \$800 million, as Kate Matberg reports on Mediapart. The banks paid kickbacks to the head of the National Bank, Valeria Gontareva, and her patron, Petro Poroshenko, Prozorov claims.

The banks involved in the scam include Tavrika, Pivdenkombank, Avtokrazbank, Moscow Commercial Bank (Converse Bank), Finrostbank, Terra Bank, Kyivsky Rus, Vernum Bank, Dnipro Credit, Delta Bank and others.

Source: Kate Matberg, Mediapart

Of the 36 banks that were granted loans by the National Bank of Ukraine at the expense of the IMF, 11 were closed without returning borrowed funds. The two banks which received the most of IMF money are Dnipro Credit and Delta Bank (folded 2015), which are owned by the oligarch Viktor Pinchuk, who also had close ties with the former IMF head in Ukraine, Jerome Vacher.

Pinchuk is the founder of the Victor Pinchuk Foundation, which has “used offshore companies to funnel over \$29 million to the Clinton Foundation since 2012, the largest transfers in 2015 and 2016,” Prozorov says.

Despite being one of the poorest countries in Europe, Ukraine was the leading donor to the Clinton Foundation 1999-2014, the Wall Street Journal reports: “Mr. Pinchuk

and his wife—the daughter of former Ukraine President Leonid Kuchma —began donating to Clinton charities in 2006 after being introduced to Mr. Clinton by Doug Schoen, a pollster who has worked for both Clintons.”

“Ukrainian steel magnate Victor Pinchuk gave the (Clinton Foundation) \$10 to \$25m”, The Independent wrote in 2018. “And he was by many accounts not shy about asking for help from Hillary Clinton when she served as secretary of state.”

Two great quotes from the Saker.

First quote:

“Sorry, but for the life of me I don't see what Trump did wrong.”

I feel the same way. I keep reading MSM articles and I think “either they have lost their minds or I have.”

What did Trump do wrong? The Hunter Biden thing absolutely stinks to high heaven. It reeks of nepotism, influence peddling and abuse of public office. Isn't it part of Trump's job to see that such conduct be investigated? And the Democrats and the media want to impeach him for this! Like I said above “I keep reading MSM articles and I think “either they have lost their minds or I have.”

Second quote:

“Just 30 years ago the USA was a totally different country. The Bill of Rights still mattered. M*A*S*H was shown on TV without having hordes of offended minorities protesting. US Americans did not fear the police (at least if you were not Black). ... Okay, the US media was mostly crap, but some 'dissident' journos could still get published' (nowadays, a US journalist is ... either a prostitute or unemployed).”

I am old enough to remember that USA. Just like the Saker I am outraged at what is happening.

This affair has shown the how shameless the anti Trump msm is. On CNN they had large panels all reading from the same script that it was absolutely false news that Biden had interfered to remove the public prosecutor who was investigating corruption at Burisma involving his coke addict son Hunter. Unfortunately for these liars there is a record of Joe's speaking engagement at the CFR from January 2018 where Biden boasts about successfully threatening to withhold a 1 Billion loan if Poroshenko failed to remove the prosecutor.

<https://www.cfr.org/event/foreign-affairs-issue-launch-former-vice-president-joe-biden>

"I was supposed to announce that there was another billion-dollar loan guarantee. And I had gotten a commitment from Poroshenko and from Yatsenyuk that they would take action against the state prosecutor. And they didn't.

So they said they had—they were walking out to a press conference. I said, nah, I'm not going to—or, we're not going to give you the billion dollars. They said, you have no authority. You're not the president. The president said—I said, call him. (Laughter.) I said, I'm telling you, you're not getting the billion dollars. I said, you're not getting the billion. I'm going to be leaving here in, I think it was about six hours. I looked at them and said: I'm leaving in six hours. If the prosecutor is not fired, you're not getting the money. Well, son of a bitch. (Laughter.) He got fired. And they put in place someone who was solid at the time."

Anti-Impeachment Presidential Candidate Gabbard Qualifies for Next Democratic Debate

<https://sputniknews.com/us/201909251076882991-anti-impeachment-presidential-candidate-gabbard-qualifies-for-next-democratic-debate/>

"However, almost uniquely among her Democratic competitors, Gabbard opposes her party's moves to impeach Trump.

"I don't [support impeachment]," Gabbard told "Full Court Press with Greta Van Susteren" earlier this month. "You know, I think it's important for us to think about what is in the best interest of the country and the American people, and continuing to pursue impeachment is something that I think will only further to tear our country apart."

"Make no bones about it: We need to defeat Donald Trump. But I think it's important for our country's sake and our future that the voters in this country are the ones who do that, and I believe that we will," she added, according to The Hill.

She echoed that sentiment on "Fox & Friends" Tuesday, telling host Brian Kilmeade, "I believe that impeachment at this juncture would be terribly divisive for the country at a time when we are already extremely divided. The hyperpartisanship is one of the main things driving our country apart."

The impeachment crap is psywar, a variation of the zionazi-gay "with us or against us" meme. It's designed herd the wad into not thinking, but reacting to theater.

The reality impeachment proceeding will not stop zionazia continuing their aggressive strategy using their trump toys. Look at how impeachment "stopped" clinton in the 1990s. It only served to obfuscate the aggression the zpc/nwo ran against Yugoslavia (a covert war initiated during the last years of the reagan/bush regime, btw).

Whatever gabbard's motivation here, genuine concern, or stealth trump regime support, the divisiveness is already there and has been fueled by the zionazi-gay psywar machine 24/7, creating a situation where the theater of the absurd is what most people (the majority of americans being selfish and lazy) see in pindoland.

What would impeaching trump accomplish? Think about it. Nothing useful. So quisling "a" is replaced by quisling "b", and the zionazi global dominance machine continues unabated. But everyone can now breath a sigh of relief because it's now the pence zionazi-gay colonial regime, instead of the trump zionazi-gay colonial regime.

Few things,

Biden – won't make it to the finish line, think they all knew that going in.

Bernie – If he is dem candidate against trump, he will lose. He is a shadow of what he was and he was a loser then. Not the guts to stand up to HRC and DNC when they literally stole it from him. Who wants a gutless wonder?

Tulsi – They are subverting her. She is the best choice of the lot. But they will ensure she won't be their candidate.

Dems know they are going to lose. They are going into it to lose. Their only platform is obstruct Trump.

If they were to win all they would have left is busting themselves taking our last few rights away. And Americans are so stupid they let that happen time and time again because they think "Their guy" actually gives a crap about them. Wake up, you guy is not your guy. He is beholden to a club you are not a part of and never will be.

I do like rants.
